

Dear colleagues, dear friends,

Following the success of the previous four meetings held in Toulouse (France, 2008), Santander (Spain, 2011), Stresa (Italy, 2014) and A Coruña (Spain, 2017), it is our pleasure to announce that the

**5th International Workshop on
Functional and Operatorial Statistics
IWFOs 2020**

will be held in Brno (Czech Republic) in June 2020 (tentatively from 24th to 27th June 2020).

The workshop will be a platform for communication, exchange of ideas and interaction for researchers in statistics for infinite-dimensional and high-dimensional problems. It will offer invited talks and contributed oral and poster communications on theory, methods and applications in the vibrant field of functional data analysis.

We aim to organize an enjoyable workshop for the participants. Suggestions regarding the format of the workshop are welcome.

Hoping to see you in Brno in 2020.

On behalf of the Scientific and Organizing Committees,

Marie Hušková

Philippe Vieu
