Saturday June 17th

CHAIR: Wenceslao González-Manteiga

Time	
9:00	**INVITED TALK** Essentials of backward nested descriptors inference **S.F. Huckemann** and B. Eltzner
9:40	• Two-sample tests for multivariate functional data Q. Jiang, **S.G. Meintanis** and L. Zhu
10:00	• Permutation tests in the two-sample problem for functional data **A. Cabaña**, A.M. Estrada, J. Peña and A.J. Quiroz
10:20	**POSTER SESSION**
11:00	Coffee-break

CHAIR: Ricardo Cao

Time	
11:20	**INVITED TALK** Registration for exponential family functional data J. Wrobel and **J. Goldsmith**
12:00	• Registration of functional data using local variations **A. Chakraborty** and V.M. Panaretos
12:20	• Parameter estimation of the functional linear model with scalar response with responses missing at random M. Febrero-Bande, **P. Galeano** and W. González-Manteiga
12:40	• Functional data analysis of "Omics" data: how does the genomic landscape influence integration and fixation of endogenous retroviruses? **M.A. Cremona**, R. Campos-Sánchez, A. Pini, S. Vantini, K.D. Makova and F. Chiaromonte
13:00	**CLOSING SESSION**
